DIGITALRAY-PATH

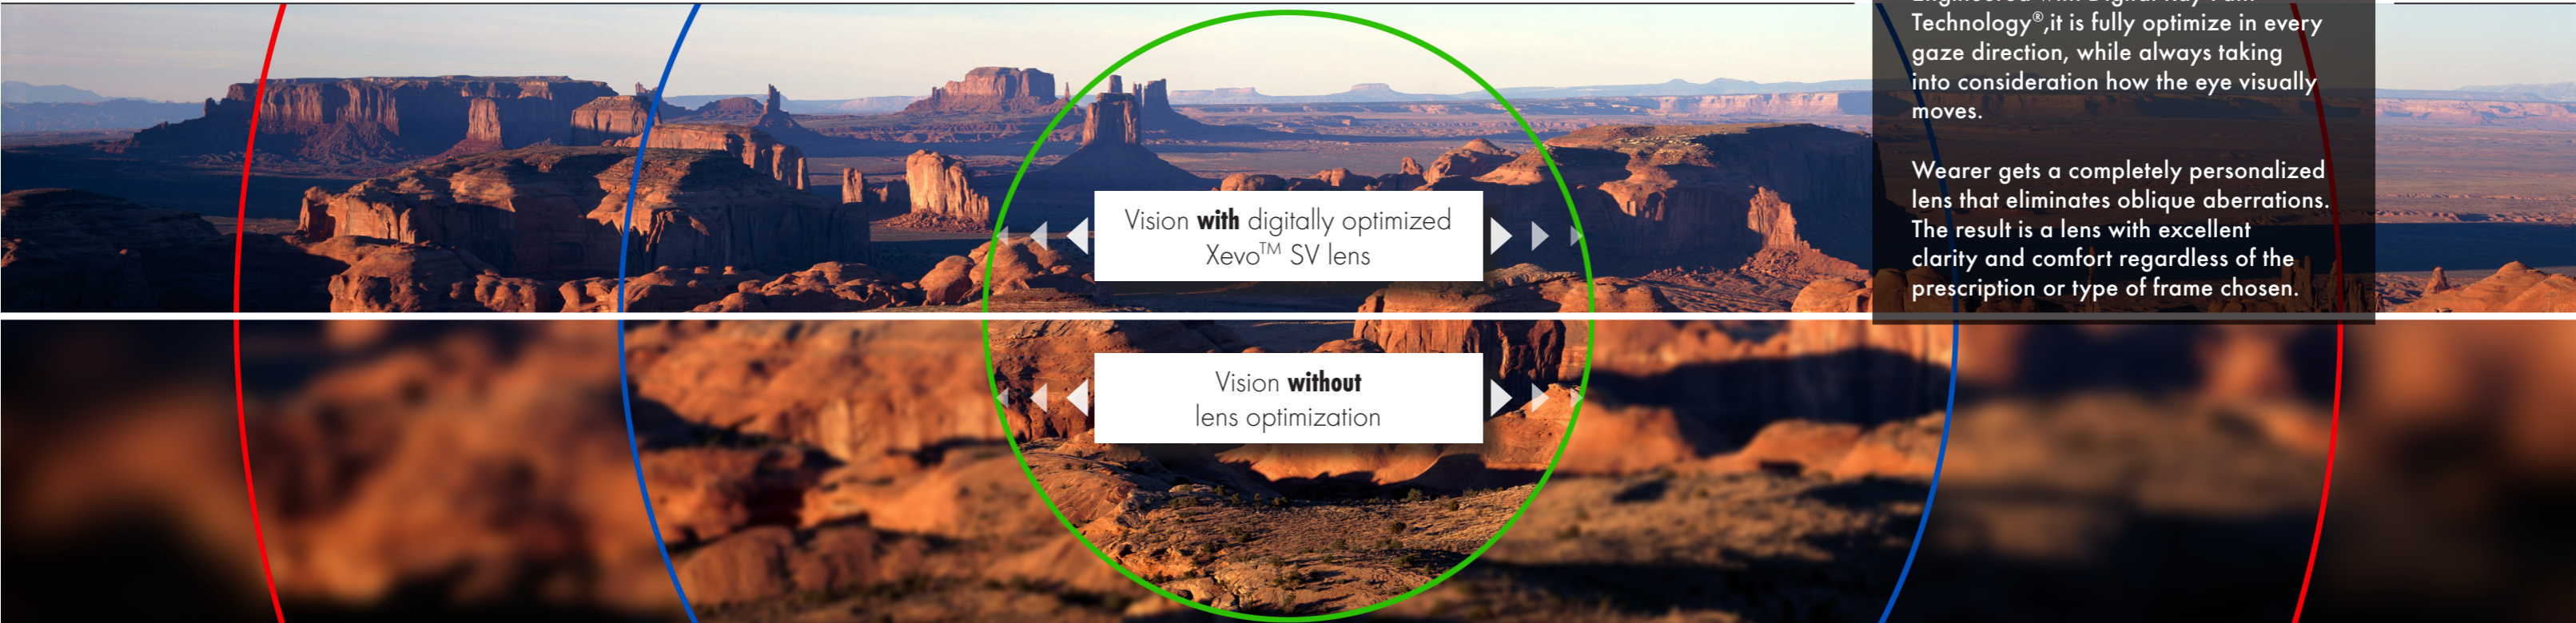

A Single Vision lens completely optimized for every user

### XEVO™ SV DESIGN OVERVIEW

Xevo™ SV represents the latest solution that delivers high visual definition all over the lens.

Engineered with Digital Ray-Path Technology®, it is fully optimized in every gaze direction, while always taking into consideration how the eye visually moves.

Wearer gets a completely personalized lens that eliminates oblique aberrations. The result is a lens with excellent clarity and comfort regardless of the prescription or type of frame chosen.

Ideal for high minus & plus prescriptions. Excellent vision in every gaze direction.

#### No limits of vision

Calculated through the cutting edge Digital Ray Path® technology this lens maximizes visual performance. A new concept of no limits vision is experienced by the wearer. Xevo™ SV provides the best visual combination of perfect vision with optimal comfort.

#### Personalization for easy adaptation and visual comfort

Each lens is individually produced taking into consideration the unique parameters of the face and frame combination. Personalization is especially important for sport frames to reduce the aberrations induced by the tilt position and curvature of the lens.

#### Personalization parameters

For 100% personalization it is essential to include all personalization parameters unique of each wearer to the prescription data. For Jobs without personalization parameters data the lens will be optimized by default values.
