

# Xevo™ 4.0

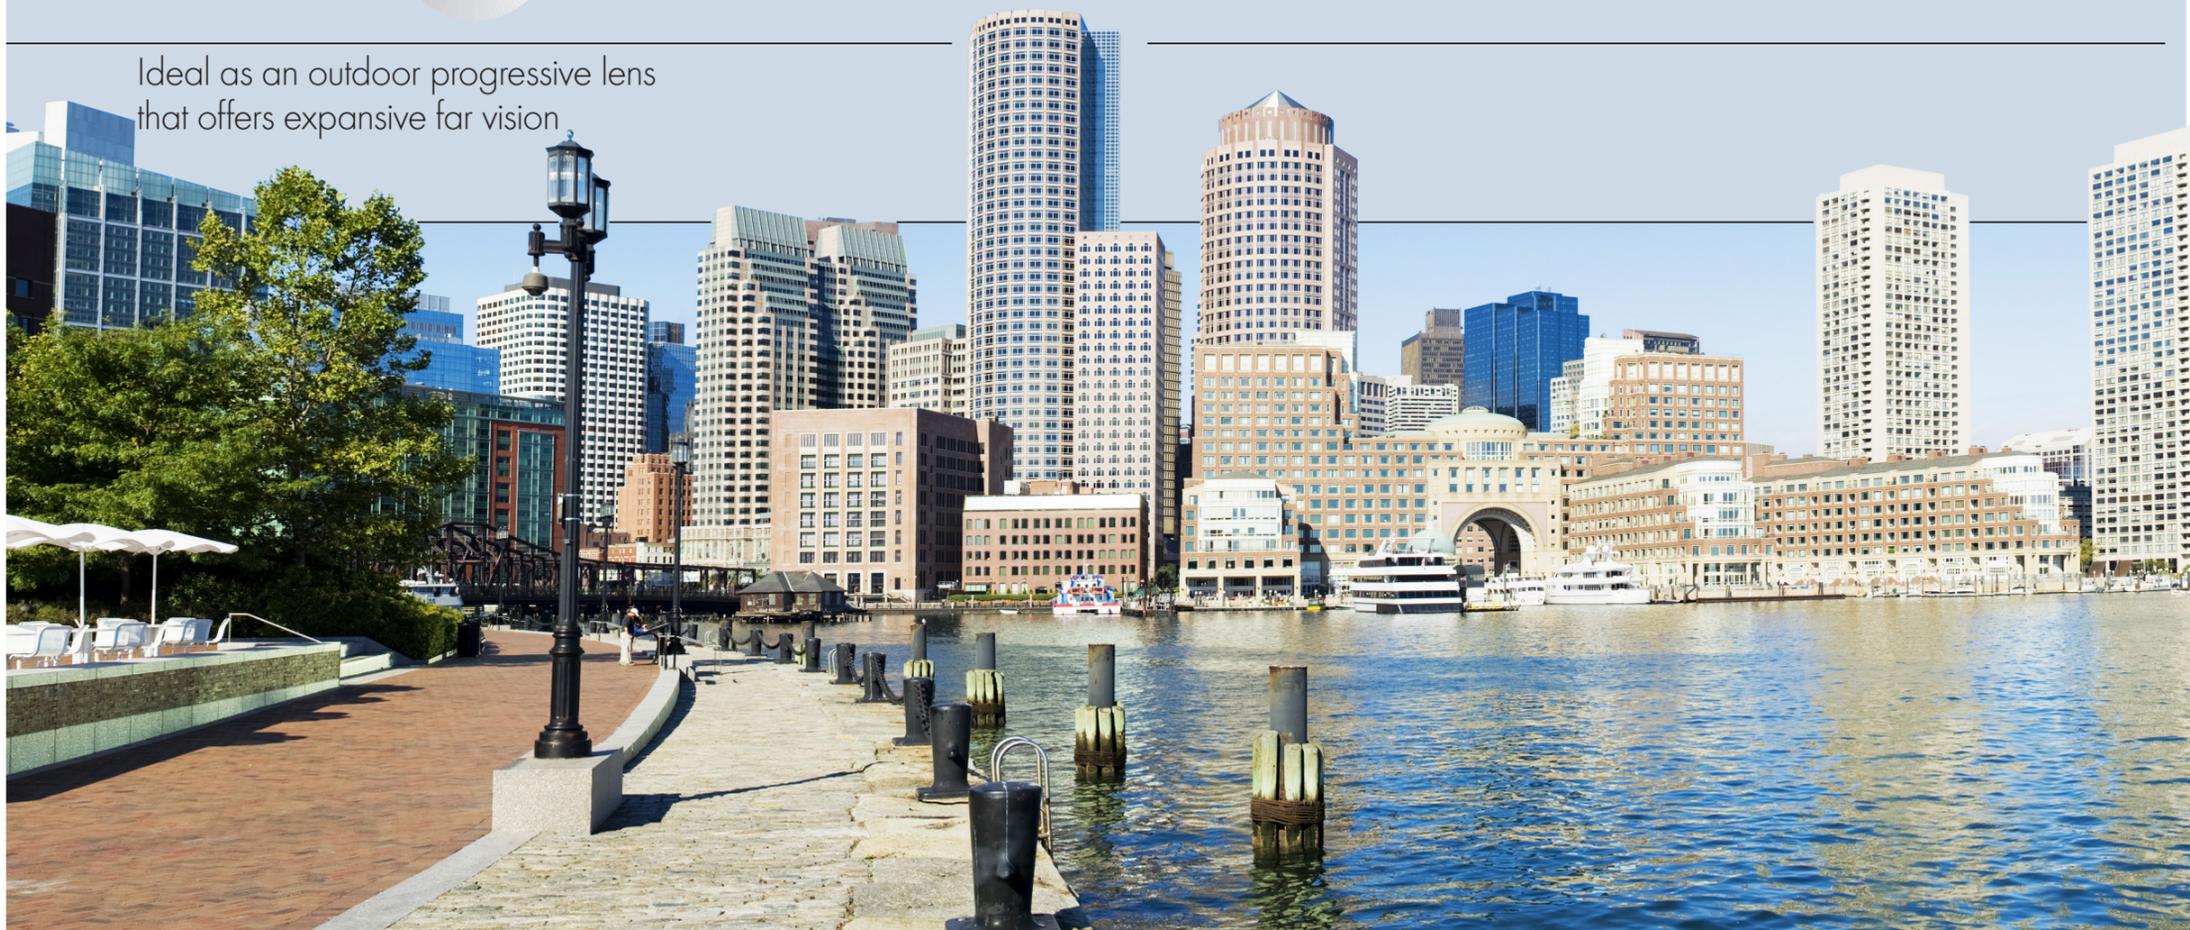

An advanced free form Progressive Lens With  
Panoramic Clarity In The Distance Zone

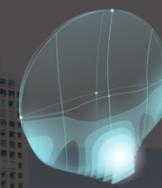

Powered By  
DIGITAL RAY-PATH

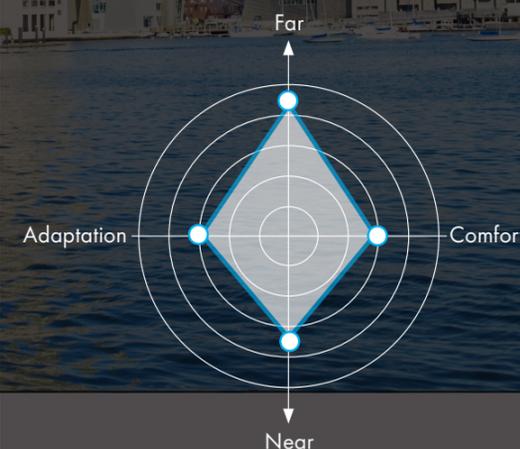

Ideal as an outdoor progressive lens that offers expansive far vision

### XEVO™ 4.0 DESIGN OVERVIEW

Progressive lens design with superior far vision. A panoramic far visual field with freedom for lateral movements of the eyes. At both sides of the pupil position we find wider and clearer visual zones improving the outdoor visual experience. Wearers will be pleased with a stable near visual area to enjoy all activities at this distance.

## Superior Far Vision. Ideal For Outdoor Activities.

#### Designed with a strong emphasis on far vision

The XEVO™ 4.0 i is designed for wearers who want improved far vision. The best option for wearers seeking a comfortable and perfect view of remote surroundings

#### Point by Point Calculation

XEVO™ 4.0 is a digital progressive lens calculated by the most advanced algorithms. The back surface of lens is optimized point by point for each particular patient to offer superior vision..

#### Compensated progressive lens design

Every lens is compensated for each base curve, material, and pupil height. This compensation uses average frame measurements which allows the lens to be optimized for any standard frames. As a result, wearers see an improved visual experience without having to take any extra measurement.

Digital Lens

Multiple Corridor

Short Corridor Available

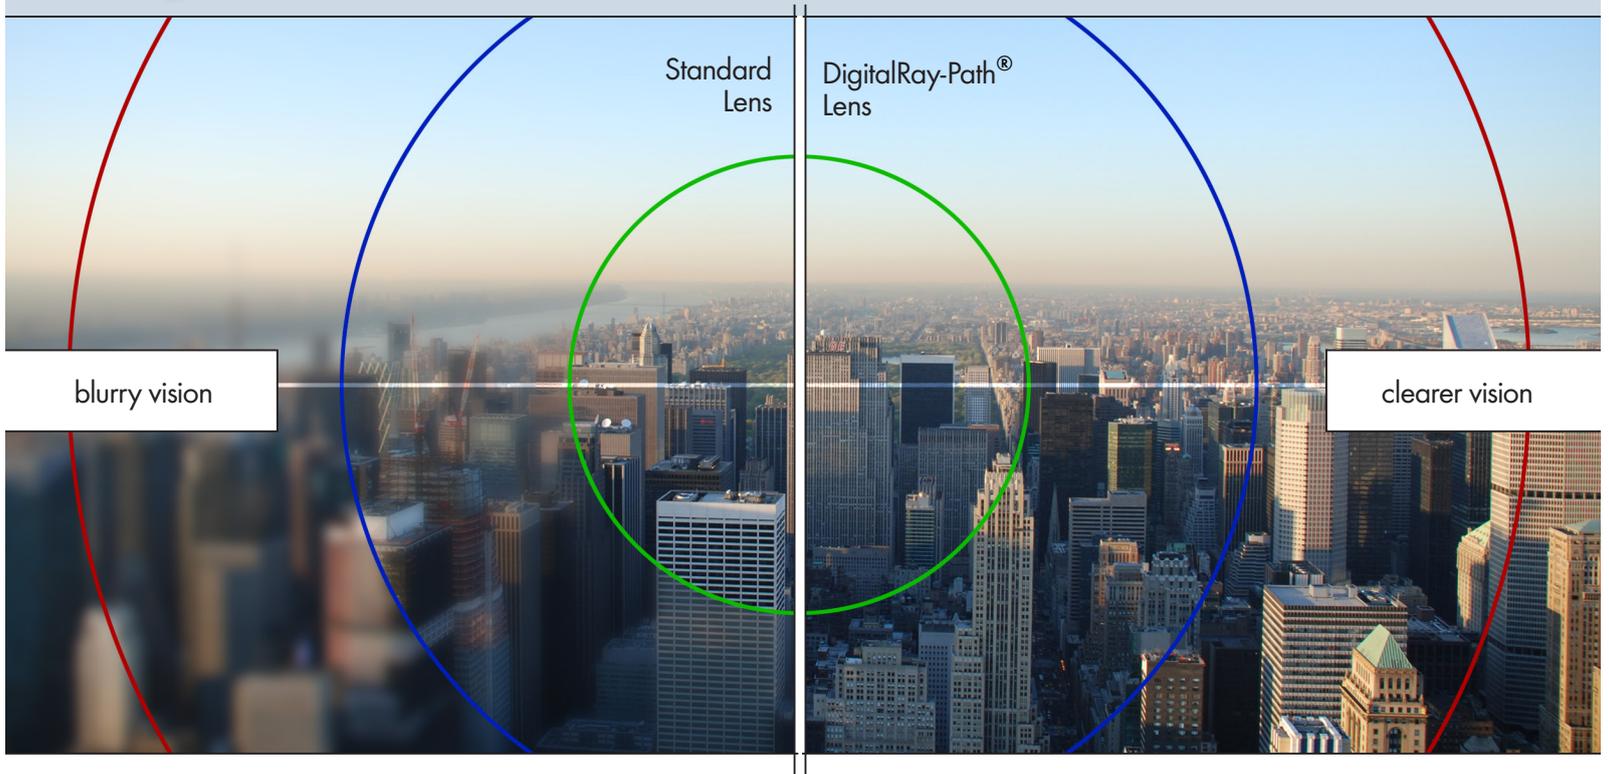

Variable Inset

## Great resolution due to Digital Ray-Path® technology

Digital Ray-Path® is an innovative calculation technique that uses a sophisticated design engine to compensate the lens with a simulation of the binocular eye-lens system. Every unique lens is individually calculated guaranteeing an adapted solution for any prescription and base curve.

## Options

### Minimum Fitting Heights Availables

XEVO™ 4.0 is available in 4 minimum fitting heights:

<b>MFH 14</b>	Minimum Fitting Height 14 mm
<b>MFH 16</b>	Minimum Fitting Height 16mm
<b>MFH 18</b>	Minimum Fitting Height 18 mm
<b>MFH 20</b>	Minimum Fitting Height 20 mm
